

Report of Analysis on Cost and Return of China's Multi- scale  
Pig Production by Region  
( 1998-2003 )

Finished in April, 2004

---

## **Background**

Based on their investigation and research of years and paying attention to the market Variation, as well as integration with survey data of related departments of the state, experts of FoodChina carried out their systematical approach to the cost and return of variety animal and poultry products with different Production scale in different regions. Meanwhile, FoodChina has built the fixed chicken and pig bases in Shandong, which provided the newest material of cost and return in 2003.

**It is necessary to point out that based on the detailed all-round data collected for many years, we will use Geographic Information System (GIS) to present the colour maps of main animal and poultry products at the county level to you, and the list of the counties with their livestock on hand or production ranked in the first 100 places; At the same time, the report has covered. the list of major enterprises importing and exporting Main Live-Stock and Poultry Products of China in 2003.**

On the bases of the work mentioned above, we completed the work "Analysis Report of Cost and Profit of Key Animal and Poultry Products of China". There are three volumes of this comprehensive report, they are:

"Analysis Report of Cost and Profit of China's Chicken Production by Region ",

"Analysis Report of Cost and Profit of China's Milk Cow, Beef Cattle and Mutton Sheep Production by Region ",

"Analysis Report of Cost and Profit of China's Multi- scale Pig Production by Region".

You can buy one or two or all of these series reports according to your need.

## **Objectives**

This research report was engaged with a number of key animal and poultry products, including pig, egg layer, broiler, milk and beef cattle and mutton sheep and goat etc.

The data derived mainly from typical household survey of 60000 families chosen from 1550 counties of China, which was carried out by the related departments of the state from 1998 to 2002.

In order to easy comparison, the related indicators/items were combined reasonably.

Through the systematical analysis of the cost and return of livestock and poultry products with multi-scale of production in different regions of China, it will help you

to deeper understand the following questions:

What are the characteristics of the main cost components of variety animal products?

How large is the gap between the cost and return of animal products with different Production scale in different regions?

How much is the price of different animal products in different regions? How are they changed?

What kind level is of the fodder requirement of different animal products in different regions? (As the basic element to study the fodder demand of China) Etc.

Through answering the questions mentioned above, you will understand comprehensively to the cost and return of variety live-stock and poultry products in different regions of China, so as the competition capability of China's live-stock and poultry products in the international market.

### **Special notes**

The production cost of livestock includes variable production cost and fixed production cost.

Variable production fees include the direct production fees, labor fees (fees of workers) and tax, among which,

the direct production fees cover fees of young animals, fees of fine fodder and coarse fodder, fees of fodder processing, fees of water, electricity and coal, fees of medical and health service and epidemic prevention, fees of loss in livestock death and fees of tools and materials etc,

the fixed production fees cover indirect production fees and period production fees etc.

**Subscription Price: US\$1,200**

## **Part One: Distribution of China's Living Pig Production**

### 1 Distribution of China's Living Pig Production by Province

#### 1.1 China's Living Pig Stock at End of the Year by Province

#### 1.2 Output of China's Living Pig by Province

### 2. Distribution of China's Living Pig Production by county

#### 2.1 Distribution of China's Living Pig Production by county(with Color Distribution Map by county)

#### 2.2 Characteristics Analysis of China's Top One Hundred Counties of Amount of Living Pig Livestock on Hand

#### 2.3 Characteristics Analysis of China's Top One Hundred Counties of Living Pig slaughter

## **Part Two: China's Living Pig in Scattering Production by Region**

### 3 Characteristics of China's Living Pig Production in Scattering Farming

#### 3.1 Analysis on China's Living Pig Production Production Scale in Scattering Farming

#### 3.2 Analysis on Breeding Days of China's Living Pig in Scattering Farming

#### 3.3 Variation of Key Products Output of China's Living Pig in Scattering Farming

#### 3.4 Fine Fodder Depletion of China's Living Pig in Scattering Farming

#### 3.5 Characteristic of Young Pig of China's Living Pig in Scattering Farming

#### 3.6 Analysis on Labor Requirement of China's Living Pig in Scattering Farming

### 4 Production Cost and Income of China's Living Pig in Scattering Farming by Region

#### 4.1 Variation of Production Value of China's Living Pig in Scattering Farming

#### 4.2 Variation of Total Production Costs of China's Living Pig in Scattering Farming

##### 4.2.1 Variation of Direct Production Cost of China's Living Pig in Scattering Farming

###### 4.2.1.1 Variation of Young Pig Cost of China's Living Pig in Scattering Farming

###### 4.2.1.2 Variation of Fine Fodder Cost of China's Living Pig in Scattering Farming

###### 4.2.1.3 Variation of Coarse Fodder Cost of China's Living Pig in Scattering Farming

###### 4.2.1.4 Variation of Epidemic Prevention Cost of China's Living Pig in Scattering Farming

##### 4.2.2 Variation of Labor Cost of China's Living Pig in Scattering Farming

#### 4.3 Net Income Variation of China's Living Pig in Scattering Farming

## **Part Three: China's Small-scale Living Pig Production by Region**

### 5 Characteristics of China's Small-scale Living Pig Production by Region

#### 5.1 Analysis on China's Small-scale Living Production Scale

#### 5.2 Analysis on Breeding Days of China's Small-scale Living Pig

#### 5.3 Variation of Key Products Output of China's Small-scale Living Pig

#### 5.4 Fine Fodder Depletion of China's Small-scale Living Pig

#### 5.5 Characteristic of Young Pig of China's Small-scale Living Pig

#### 5.6 Analysis on Labor Requirement of China's Small-scale Living Pig

### 6 Production Cost and Income of China's Small-scale Living Pig by Region

#### 6.1 Variation of Production Value of China's Small-scale Living Pig

#### 6.2 Variation of Total Production Costs of China's Small-scale Living Pig

##### 6.2.1 Variation of Direct Production Cost of China's Small-scale Living Pig

###### 6.2.1.1 Variation of Young Pig Cost of China's Small-scale Living Pig

###### 6.2.1.2 Variation of Fine Fodder Cost of China's Small-scale Living Pig

###### 6.2.1.3 Variation of Coarse Fodder Cost of China's Small-scale Living Pig

###### 6.2.1.4 Variation of Epidemic Prevention Cost of China's Small-scale Living Pig

##### 6.2.2 Variation of Labor Cost of China's Small-scale Living Pig

#### 6.3 Net Income Variation of China's Small-scale Living Pig

## **Part Four: China's Middle-scale Living Pig Production by Region**

### 7 Characteristics of China's Middle-scale Living Pig Production by Region

#### 7.1 Analysis on China's Middle-scale Living Production Scale

#### 7.2 Analysis on Breeding Days of China's Middle-scale Living Pig

#### 7.3 Variation of Key Products Output of China's Middle-scale Living Pig

#### 7.4 Fine Fodder Depletion of China's Middle-scale Living Pig

#### 7.5 Characteristic of Young Pig of China's Middle-scale Living Pig

#### 7.6 Analysis on Labor Requirement of China's Middle-scale Living Pig

### 8 Production Cost and Income of China's Middle-scale Living Pig by Region

#### 8.1 Variation of Production Value of China's Middle-scale Living Pig

#### 8.2 Variation of Total Production Costs of China's Middle-scale Living Pig

##### 8.2.1 Variation of Direct Production Cost of China's Middle-scale Living Pig

###### 8.2.1.1 Variation of Young Pig Cost of China's Middle-scale Living Pig

- 8.2.1.2 Variation of Fine Fodder Cost of China's Middle-scale Living Pig
- 8.2.1.3 Variation of Coarse Fodder Cost of China's Middle-scale Living Pig
- 8.2.1.4 Variation of Epidemic Prevention Cost of China's Middle-scale Living Pig
- 8.2.2 Variation of Labor Cost of China's Middle-scale Living Pig
- 8.3 Net Income Variation of China's Middle-scale Living Pig

## **Part Five: China's Large-scale Living Pig Production by Region**

- 9 Characteristics of China's Large-scale Living Pig Production by Region
  - 9.1 Analysis on China's Large-scale Living Production Scale
  - 9.2 Analysis on Breeding Days of China's Large-scale Living Pig
  - 9.3 Variation of Key Products Output of China's Large-scale Living Pig
  - 9.4 Fine Fodder Depletion of China's Large-scale Living Pig
  - 9.5 Characteristic of Young Pig of China's Large-scale Living Pig
  - 9.6 Analysis on Labor Requirement of China's Large-scale Living Pig
- 10 Production Cost and Income of China's Large-scale Living Pig by Region
  - 10.1 Variation of Production Value of China's Large-scale Living Pig
  - 10.2 Variation of Total Production Costs of China's Large-scale Living Pig
    - 10.2.1 Variation of Direct Production Cost of China's Large-scale Living Pig
      - 10.2.1.1 Variation of Young Pig Cost of China's Large-scale Living Pig
      - 10.2.1.2 Variation of Fine Fodder Cost of China's Large-scale Living Pig**
      - 10.2.1.3 Variation of Coarse Fodder Cost of China's Large-scale Living Pig
      - 10.2.1.4 Variation of Epidemic Prevention Cost of China's Large-scale Living Pig
    - 10.2.2 Variation of Labor Cost of China's Large-scale Living Pig
  - 10.3 Net Income Variation of China's Large-scale Living Pig
